Part I. General Information

1. MS 4 Operator Name: City of Crystal Lake

2. MS4 Mailing Address: 100 W. Woodstock Street
   City: Crystal Lake
   State: IL

3. Operator Type: City

4. Operator Status: Local

5. Name(s) of governmental entity(ies) in which MS4 is located:
   McHenry County

6. Area of land that drains to your MS4 in square miles: 18.52

7. Latitude and Longitude at approximate geographical center of MS4 for which you are requesting authorization to discharge:
   Latitude: N42° 14' 42.78"
   Longitude: W88° 19' 24.12"

8. Name(s) of known receiving waters
   Kishwaukee River (NW side of city)
   Crystal Lake (Center of City)
   Crystal Creek (Center of City)
   Sleepy Hollow Creek (NE side of city)
   Kishwaukee Creek (SW side of city)
   Woods Creek Tributary (South side of city)
   Cary Creek (east side of city)
9. Persons responsible for implementation or coordination of Stormwater Management Program:

Part II. Best Management Practices (include shared responsibilities) which have been implemented or are proposed to be implemented in the MS4 area:

A. Public Education and Outreach

Qualifying Local Programs:

McHenry County and the City both perform a variety of activities that meet the requirements of the Public Education and Outreach minimum control measure. These activities include BMPs: A.1, A.3, A.4 and A.6.

Measurable Goals (include shared responsibilities)

- A.1 Distributed Paper Material

Brief Description of BMP:

The City and McHenry County distribute a variety of paper materials from a number of sources informing the public about stormwater or water quality and why they are important.

Measurable Goals, including frequencies:

The materials chosen will be targeted toward residents, businesses and other potential pollutant sources to create better awareness and knowledge of the issue.

Milestones:

Go to Additional Pages

Year 1:

The City will continue to distribute the educational materials and will work to increase distribution by 10%.

Year 2:

The City will continue to distribute the educational materials and will work to increase distribution by 10%.

Year 3:

The City will continue to distribute the educational materials and will work to increase distribution by 10%.

Year 4:

The City will continue to distribute the educational materials and will work to increase distribution by 10%.

Year 5:

The City will continue to distribute the educational materials and will work to increase distribution by 10%.
## A.3 Public Service Announcement

**Brief Description of BMP:**

The City publishes information about stormwater or water quality in the City newsletter.

**Measurable Goals, including frequencies:**

The articles chosen will be selected to increase the resident's knowledge and awareness regarding stormwater and water quality.

**Milestones:**

**Year 1:**

Publish information articles in the City newsletter at least once a year.

**Year 2:**

Publish information articles in the City newsletter at least once a year.

**Year 3:**

Publish information articles in the City newsletter at least once a year.

**Year 4:**

Publish information articles in the City newsletter at least twice a year.

**Year 5:**

Publish information articles in the City newsletter at least twice a year.

**A.4 Community Event**

**Brief Description of BMP:**

The City has designed and constructed a rain garden with the Wildflower Preservation and Propagation Committee (WPPC).

**Measurable Goals, including frequencies:**

The City will continue to maintain and enhance the rain garden as an educational tool for residents and to demonstrate their value for managing stormwater runoff.

**Milestones:**

**Year 1:**

Maintain existing rain garden and seek additional partnerships as funding allows.

**Year 2:**

Maintain existing rain garden and seek additional partnerships as funding allows.

**Year 3:**

Maintain existing rain garden and seek additional partnerships as funding allows.

**Year 4:**

Maintain existing rain garden and seek additional partnerships as funding allows.

**Year 5:**

Maintain existing rain garden and seek additional partnerships as funding allows.
### Brief Description of BMP:

The City will utilize other means such as the City website, library, etc. as conduits for reaching additional residents.

### Measurable Goals, including frequencies:

<table>

### B. Public Participation/Involvement

**Measurable Goals (include shared responsibilities)**

**Qualifying Local Programs:**

McHenry County and the City both perform a variety of activities that meet the requirements of the Public Participation and Involvement minimum control measure. These activities include BMP's: B.2, B.3, B.6 and B.7.

- B.2 Educational Volunteer

(You may need to go to the next page to fill in this information)
Brief Description of BMP:

City staff regularly participate in volunteering activities that provide opportunities to interact with residents and educate them on the importance of stormwater and water quality.

Measurable Goals, including frequencies:

City staff will continue to perform these activities and work to increase participation from its staff and attendance by residents.

Milestones:

Year 1:

The City will participate in at least one volunteering activity each year.

Year 2:

The City will participate in at least one volunteering activity each year and work to increase attendance by 5%.

Year 3:

The City will participate in at least one volunteering activity each year and work to increase attendance by 5%.

Year 4:

The City will participate in at least one volunteering activity each year and work to increase attendance by 5%.

Year 5:

The City will participate in at least one volunteering activity each year and work to increase attendance by 5%.

(You may need to go to the next page to fill in this information)

Brief Description of BMP:

The City will work to conduct stakeholder meetings as needed to connect directly with impacted residents and to distribute information.

Measurable Goals, including frequencies:

Stakeholder meetings offer direct input on issues impacting residents and provide an opportunity to gather feedback as well as disseminate stormwater related information.

Milestones:

Year 1:

The City will work to hold one stakeholder meeting.

Year 2:

The City will work to hold one stakeholder meeting.

Year 3:

The City will work to hold one stakeholder meeting.

Year 4:

The City will work to hold two stakeholder meetings.

Year 5:

The City will work to hold two stakeholder meetings.

(You may need to go to the next page to fill in this information)
The City has coordinated with other local municipalities and agencies on regional stormwater related issues.

Measurable Goals, including frequencies:

The City will continue to partner with the County and other agencies to coordinate efforts such as watershed studies and other issues that impact more than one individual municipality.

Milestones:

Year 1:
The City will work to coordinate with other local agencies regarding stormwater related issues.

Year 2:
The City will work to coordinate with other local agencies regarding stormwater related issues.

Year 3:
The City will work to coordinate with other local agencies regarding stormwater related issues.

Year 4:
The City will work to coordinate with other local agencies regarding stormwater related issues.

Year 5:
The City will work to coordinate with other local agencies regarding stormwater related issues.

(Brief Description of BMP:

The City has hosted elementary schools and other residents with tours through various departments of the City.

Measurable Goals, including frequencies:

The tours allow the City to educate the participants on the various functions of the City, as well as specifically provide them with knowledge of stormwater vs sanitary, why we treat sanitary and why keeping stormwater is important.

Milestones:

Year 1:
The City will continue with the education tour program for elementary schools.

Year 2:
The City will continue with the education tour program for elementary schools.

Year 3:
The City will continue with the education tour program for elementary schools and work to identify other participants.

Year 4:
The City will continue with the education tour program for elementary schools and work to identify other participants.

Year 5:
The City will continue with the education tour program for elementary schools and work to identify other participants.

(You may need to go to the next page to fill in this information)
C. Illicit Discharge Detection and Elimination

Qualifying Local Programs:

The City and McHenry County perform a number of activities related to the Illicit Discharge Detection and Elimination minimum control measure. They include the following BMP's: C.1, C.2, C.3, C.4, C.5, C.6, C.7, C.8 and C.10.

Measurable Goals (include shared responsibilities)

☒ C.1 Sewer Map Preparation

(You may need to go to the next page to fill in this information)

Brief Description of BMP:

The City has a GIS based mapping system of the receiving streams and a number of outfalls.

Measurable Goals, including frequencies:

The City will work to update the GIS system and outfall inventory mapping.

Milestones:

Year 1:

The City will continue to evaluate and confirm the mapping.

Year 2:

The City will continue to evaluate and confirm the mapping.

Year 3:

The City will continue to evaluate and confirm the mapping.

Year 4:

The City will continue to evaluate and confirm the mapping.

Year 5:

The City will continue to evaluate and confirm the mapping.

Go to Additional Pages

☒ C.2 Regulatory Control Program

(You may need to go to the next page to fill in this information)
The City and County have ordinances in place to allow for regulatory action if an illicit discharge is observed, reported or discovered.

Measurable Goals, including frequencies:

The City will continue to enforce the existing ordinances that prevent non-stormwater discharges to reduce or eliminate pollutants from entering the municipal separate storm sewer system.

Milestones:
Year 1:

The City will continue to enforce the existing ordinances.

Year 2:

The City will continue to enforce the existing ordinances.

Year 3:

The City will continue to enforce the existing ordinances.

Year 4:

The City will continue to enforce the existing ordinances.

Year 5:

The City will continue to enforce the existing ordinances.

Go to Additional Pages

• C.3 Detection/Elimination Prioritization Plan  (You may need to go to the next page to fill in this information)

Brief Description of BMP:
The City utilizes various departments to identify and report potential illicit discharges. The City also investigates reports of illicit discharges.

Measurable Goals, including frequencies:
The City will continue to identify and investigate potential illicit discharges to reduce or eliminate the impact on local stormwater systems and receiving streams.

Milestones:
Year 1:
The City will continue to identify and investigate potential illicit discharges.

Year 2:
The City will continue to identify and investigate potential illicit discharges.

Year 3:
The City will continue to identify and investigate potential illicit discharges.

Year 4:
The City will continue to identify and investigate potential illicit discharges.

Year 5:
The City will continue to identify and investigate potential illicit discharges.

Go to Additional Pages

• C.4 Illicit Discharge Tracing Procedures  (You may need to go to the next page to fill in this information)
Brief Description of BMP:
The City uses all information available including development plans and the GIS system to trace and eliminate illicit discharges.

Measurable Goals, including frequencies:
The City will track, investigate and eliminate illicit discharges as reported, observed or identified.

Milestones:
Year 1:
The City will trace and eliminate illicit discharges as needed.

Year 2:
The City will trace and eliminate illicit discharges as needed.

Year 3:
The City will trace and eliminate illicit discharges as needed.

Year 4:
The City will trace and eliminate illicit discharges as needed.

Year 5:
The City will trace and eliminate illicit discharges as needed.

(You may need to go to the next page to fill in this information)

Brief Description of BMP:
The City and County both have enforcement procedures in place to assist with the removal of an identified illicit discharge.

Measurable Goals, including frequencies:
The City will utilize enforcement procedures as needed to eliminate illicit discharges to reduce or eliminate the amount of pollutants entering the municipal separate storm sewer system.

Milestones:
Year 1:
The City will utilize enforcement procedures as needed to eliminate illicit discharges.

Year 2:
The City will utilize enforcement procedures as needed to eliminate illicit discharges.

Year 3:
The City will utilize enforcement procedures as needed to eliminate illicit discharges.

Year 4:
The City will utilize enforcement procedures as needed to eliminate illicit discharges.

Year 5:
The City will utilize enforcement procedures as needed to eliminate illicit discharges.

(You may need to go to the next page to fill in this information)
Brief Description of BMP:
The City will evaluate the illicit discharge and detection program for effectiveness and possible improvements.

Measurable Goals, including frequencies:

Regular evaluation of the program can provide valuable input and opportunity for improvement.

Milestones:
Year 1:
The City will evaluate the program at least once a year.

Year 2:
The City will evaluate the program at least once a year.

Year 3:
The City will evaluate the program at least twice a year.

Year 4:
The City will evaluate the program at least twice a year.

Year 5:
The City will evaluate the program at least twice a year.

(You may need to go to the next page to fill in this information)

Brief Description of BMP:
The City regularly performs dry weather screening as part of its maintenance activities.

Measurable Goals, including frequencies:
The City will work to utilize inspection forms while performing the dry weather screening inspections.

Milestones:
Year 1:
The City will develop a dry weather inspection form and procedures.

Year 2:
The City will evaluate its dry weather inspection form and procedures.

Year 3:
The City will implement its dry weather inspection form and procedures.

Year 4:
The City will implement its dry weather inspection form and procedures at 10% of the outfalls.

Year 5:
The City will implement its dry weather inspection form and procedures at 10% of the outfalls.

(You may need to go to the next page to fill in this information)
The City regularly samples, test and documents the results of influent and effluent flow to various lakes and streams throughout the community.

Measurable Goals, including frequencies:

The City analyzes the stormwater quality to determine acceptable levels of water quality of its lakes and streams.

Milestones:

Year 1:

The City will continue the testing program.

Year 2:

The City will continue the testing program and expand by 5% or as funding allows.

Year 3:

The City will continue the testing program and expand by 5% or as funding allows.

Year 4:

The City will continue the testing program and expand by 5% or as funding allows.

Year 5:

The City will continue the testing program and expand by 5% or as funding allows.

D. Construction Site Runoff Control

Measurable Goals (include shared responsibilities)

Qualifying Local Programs:

The City and County have ordinances in place to allow for regulatory action related to construction site runoff control. These activities address the following BMP's: D.1, D.2, D.5 and D.6.

- D.1 Regulatory Control Program

(You may need to go to the next page to fill in this information)
**Brief Description of BMP:**
The City and County have ordinances in place to allow for review, inspection, and enforcement of construction site runoff controls.

**Measurable Goals, including frequencies:**
The City will continue to review, inspect and enforce the ordinance regulations to prevent or reduce the discharge of sediment or other pollutants from construction sites.

**Milestones:**

**Year 1:**
The City will enforce the regulatory procedures.

**Year 2:**
The City will enforce the regulatory procedures.

**Year 3:**
The City will enforce the regulatory procedures.

**Year 4:**
The City will enforce the regulatory procedures.

**Year 5:**
The City will enforce the regulatory procedures.

(You may need to go to the next page to fill in this information)

**Go to Additional Pages**

- D.2 Erosion and Sediment Control BMPs

**Brief Description of BMP:**
The City and County have ordinances in place to allow for review, inspection, and enforcement of construction site runoff control BMP’s.

**Measurable Goals, including frequencies:**
The City will continue to review, inspect and enforce the ordinance regulations to prevent or reduce the discharge of sediment or other pollutants from construction sites as it relates to BMP’s.

**Milestones:**

**Year 1:**
The City will enforce the regulatory procedures.

**Year 2:**
The City will enforce the regulatory procedures.

**Year 3:**
The City will enforce the regulatory procedures.

**Year 4:**
The City will enforce the regulatory procedures.

**Year 5:**
The City will enforce the regulatory procedures.

(You may need to go to the next page to fill in this information)

**Go to Additional Pages**

- D.3 Other Waste Control Program
- D.4 Site Plan Review Procedures
Brief Description of BMP:

The City has procedures that proposed developments be reviewed for compliance.

Measurable Goals, including frequencies:

The City will continue to require all developments to be reviewed for compliance with applicable NPDES regulations and other City ordinance standards.

Milestones:

Year 1:

The City will enforce the review procedures.

Year 2:

The City will enforce the review procedures.

Year 3:

The City will enforce the review procedures.

Year 4:

The City will enforce the review procedures.

Year 5:

The City will enforce the review procedures.

Go to Additional Pages

☐ D.5 Public Information Handling Procedures (You may need to go to the next page to fill in this information)

Brief Description of BMP:

The City has procedures in place for receiving, logging and addressing publicly reported issues.

Measurable Goals, including frequencies:

The City will continue to respond to publicly reported issues in a timely manner and investigate as needed to address them.

Milestones:

Year 1:

The City will respond to publicly reported issues accordingly.

Year 2:

The City will respond to publicly reported issues accordingly.

Year 3:

The City will respond to publicly reported issues accordingly.

Year 4:

The City will respond to publicly reported issues accordingly.

Year 5:

The City will respond to publicly reported issues accordingly.

Go to Additional Pages

☐ D.6 Site Inspection/Enforcement Procedures (You may need to go to the next page to fill in this information)
The City and County regulatory programs allow for inspection and enforcement procedures for construction site runoff control.

Measurable Goals, including frequencies:

The City will continue to inspect all new developments for compliance with the City and County ordinances.

Milestones:

Year 1:
The City will enforce the ordinance.

Year 2:
The City will enforce the ordinance.

Year 3:
The City will enforce the ordinance.

Year 4:
The City will enforce the ordinance.

Year 5:
The City will enforce the ordinance.

☐ D.7 Other Construction Site Runoff Controls
E. Post-Construction Runoff Control

Qualifying Local Programs:

The City and McHenry County perform a number of activities related to the Post Construction Runoff Control minimum control measure. They include the following BMP’s: E.2, E.3, E.4 and E.5.

Measurable Goals (include shared responsibilities)

☐ E.1 Community Control Strategy
☒ E.2 Regulatory Control Program

Brief Description of BMP:

The City and County have ordinances in place that allow for the review, intersection and enforcement of post-construction runoff control measures.

Measurable Goals, including frequencies:

The City will continue to enforce the ordinances for compliance with post construction runoff controls to prevent or reduce the discharge of contaminants from construction sites.

Milestones:

Year 1:

The City will enforce the ordinances.

Year 2:

The City will enforce the ordinances.

Year 3:

The City will enforce the ordinances.

Year 4:

The City will enforce the ordinances.

Year 5:

The City will enforce the ordinances.

Go to Additional Pages

☒ E.3 Long Term O & M Procedures (You may need to go to the next page to fill in this information)
Brief Description of BMP:
The City has procedures in place for assisting and evaluating the long term maintenance of stormwater best management practices.

Measurable Goals, including frequencies:
The City will continue to assist developers, residents and other target audiences by providing sample maintenance plans and conducting inspections as necessary.

Milestones:

Year 1:
The City will continue to distribute sample maintenance plans for new developments and inspect existing BMPs as necessary.

Year 2:
The City will continue to distribute sample maintenance plans for new developments and inspect existing BMPs as necessary.

Year 3:
The City will continue to distribute sample maintenance plans for new developments and inspect existing BMPs as necessary.

Year 4:
The City will continue to distribute sample maintenance plans for new developments and inspect existing BMPs as necessary.

Year 5:
The City will continue to distribute sample maintenance plans for new developments and inspect existing BMPs as necessary.

Go to Additional Pages

E.4 Pre-Construction Review of BMP Designs (You may need to go to the next page to fill in this information)

Brief Description of BMP:
The City has procedures in place for the pre-construction review of BMP designs. These procedures include pre-application meetings for large scale developments.

Measurable Goals, including frequencies:
The City will continue the review procedures and modify or evaluate as needed to maintain compliance.

Milestones:

Year 1:
The City will continue the BMP review procedures.

Year 2:
The City will continue the BMP review procedures.

Year 3:
The City will continue the BMP review procedures.

Year 4:
The City will continue the BMP review procedures.

Year 5:
The City will continue the BMP review procedures.

Go to Additional Pages

E.5 Site Inspections During Construction (You may need to go to the next page to fill in this information)
Brief Description of BMP:
The City has procedures in place to perform site inspections during construction by qualified personnel.

Measurable Goals, including frequencies:
The City will continue with the site inspection procedures to verify compliance of BMP's in reducing and/or preventing the discharge of contaminants to local waterways and storm sewers.

Milestones:

Year 1:
The City will continue with the site inspection procedures.

Year 2:
The City will continue with the site inspection procedures.

Year 3:
The City will continue with the site inspection procedures.

Year 4:
The City will continue with the site inspection procedures.

Year 5:
The City will continue with the site inspection procedures.

F. Pollution Prevention/Good Housekeeping

Measurable Goals (include shared responsibilities)

Qualifying Local Programs:
The City and McHenry County perform a number of activities related to Pollution Prevention and Good Housekeeping minimum control measure. They include the following BMP's: F.1, F.2, F.3, F.4, F.5 and F.6.

☐ F.1 Employee Training Program

(You may need to go to the next page to fill in this information)
Brief Description of BMP:
The City regularly provides training to staff regarding a variety of topics aimed at reducing or preventing the discharge of contaminants from municipal operations.

Measurable Goals, including frequencies:
The City will continue with the training program aimed at educating City staff on ways to reduce or prevent stormwater pollution from City activities.

Milestones:
Year 1:
The City will continue with the training program.

Year 2:
The City will continue with the training program.

Year 3:
The City will continue with the training program.

Year 4:
The City will continue with the training program.

Year 5:
The City will continue with the training program.

Brief Description of BMP:
The City has an inspection and maintenance program in place to evaluate and maintain stormwater facilities. These activities include the City's extensive street sweeping program.

Measurable Goals, including frequencies:
The City will continue the inspection and maintenance program of stormwater facilities to reduce the amount of debris and pollutants that enter the stormwater system.

Milestones:
Year 1:
The City will continue the inspection program and evaluate approximately 20% of the stormwater system.

Year 2:
The City will continue the inspection program and evaluate approximately 20% of the stormwater system.

Year 3:
The City will continue the inspection program and evaluate approximately 20% of the stormwater system.

Year 4:
The City will continue the inspection program and evaluate approximately 20% of the stormwater system.

Year 5:
The City will continue the inspection program and evaluate approximately 20% of the stormwater system.
Brief Description of BMP:

The City has procedures in place to reduce or prevent the discharge of contaminants to the stormwater system from municipal operations.

Measurable Goals, including frequencies:

The City will continue to be proactive in evaluating municipal activities that could potentially introduce pollutants to the stormwater system and develop methods to reduce or prevent them.

Milestones:

Year 1:

The City will continue with the municipal control measures and evaluate additional methods as needed.

Year 2:

The City will continue with the municipal control measures and evaluate additional methods as needed.

Year 3:

The City will continue with the municipal control measures and evaluate additional methods as needed.

Year 4:

The City will continue with the municipal control measures and evaluate additional methods as needed.

Year 5:

The City will continue with the municipal control measures and evaluate additional methods as needed.

Brief Description of BMP:

The City has procedures that require appropriate disposal of all wastes generated during municipal operations.

Measurable Goals, including frequencies:

The City will continue with the disposal program and requirements to reduce or eliminate the release of pollutants from municipal operations.

Milestones:

Year 1:

The City will continue with the municipal operations disposal program.

Year 2:

The City will continue with the municipal operations disposal program.

Year 3:

The City will continue with the municipal operations disposal program.

Year 4:

The City will continue with the municipal operations disposal program.

Year 5:

The City will continue with the municipal operations disposal program.

Go to Additional Pages

F.4 Municipal Operations Waste Disposal (You may need to go to the next page to fill in this information)

F.5 Flood Management/Assess Guidelines (You may need to go to the next page to fill in this information)
Brief Description of BMP:
The City, County and State have strict development regulations related to floodplain management and the evaluation of potential development in these areas.

Measurable Goals, including frequencies:
The City will continue to enforce the requirements for potential development in special flood hazard areas.

Milestones:
Year 1:
The City will continue to enforce the flood management requirements.

Year 2:
The City will continue to enforce the flood management requirements.

Year 3:
The City will continue to enforce the flood management requirements.

Year 4:
The City will continue to enforce the flood management requirements.

Year 5:
The City will continue to enforce the flood management requirements.

*Go to Additional Pages

[✓] F.6 Other Municipal Operations Controls (You may need to go to the next page to fill in this information)

Brief Description of BMP:
The City regularly evaluates their municipal activities for additional ways to reduce or eliminate pollutants from entering the stormwater system including salt reduction, additional de-icing alternatives and other actions.

Measurable Goals, including frequencies:
The City will continue to evaluate and develop methods or changes to existing practices that can reduce or eliminate pollutants from entering the stormwater system from municipal activities.

Milestones:
Year 1:
The City will continue the evaluation and monitoring program.

Year 2:
The City will continue the evaluation and monitoring program.

Year 3:
The City will continue the evaluation and monitoring program.

Year 4:
The City will continue the evaluation and monitoring program.

Year 5:
The City will continue the evaluation and monitoring program.
